

JENTON *ariana*

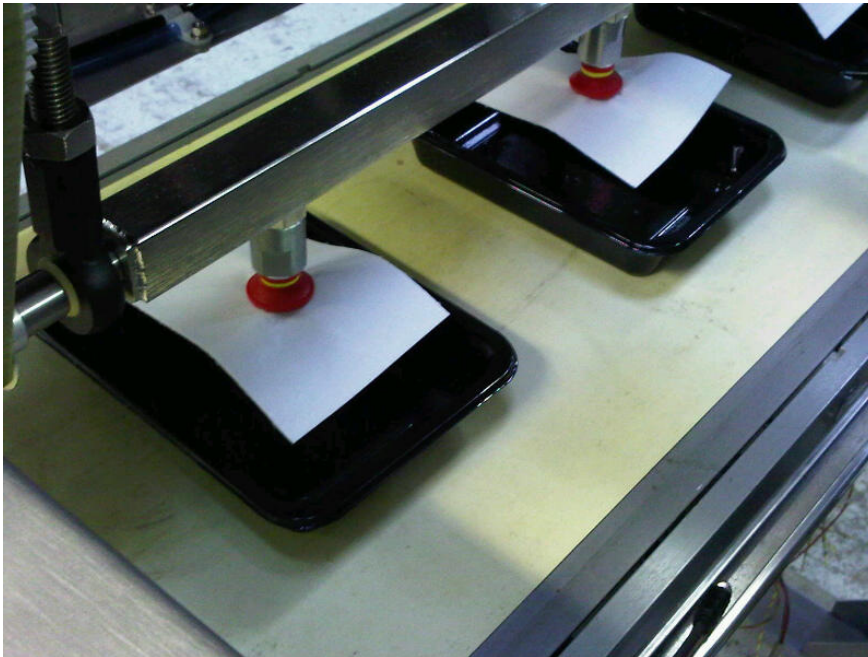

AUTOPAD Absorbent Pad Placing Machine

This machine automatically places pre-cut absorbent "Peach Pads" into pre-formed trays on a thermoforming system and can be easily changed between lane configurations. Spare magazines can also be supplied for different pad sizes. 2 and 3 row placing is an option.

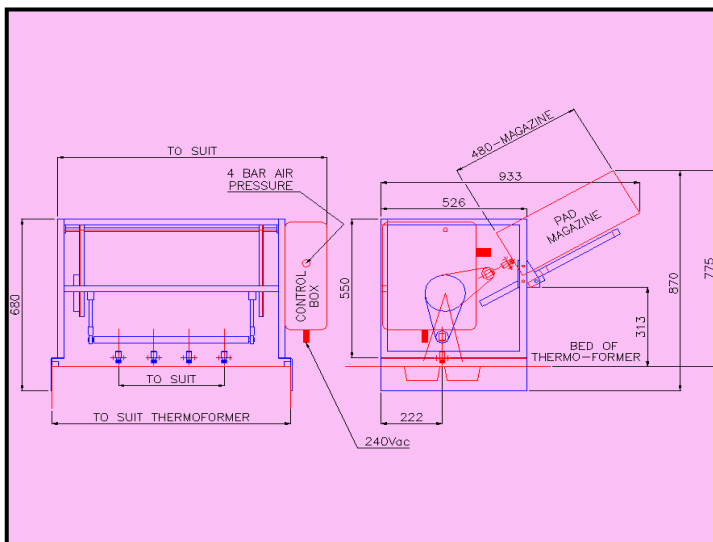

The Autopad was Jenton-Ariana's first machine introduced to automate the fresh food processing industry. It is a proven, efficient, hygienic and space saving method to pick and place absorbent pads and is easily fitted to all thermoformers.

The AUTOPAD offers:

- 1,2 and 3 row multi lane placing
- Easy and quick pad size change over
- Variable lane centres
- Operator friendly adjustment
- Easily positioned over thermoformer or conveyor
- Low maintenance
